## DETAILED ACTION

### *Drawings*

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "17" has been used to designate both regions ([0026], line 5) and fibers ([0029], line 3). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 25 ([0029], line 1). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be

Art Unit: 3723

notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

3. The disclosure is objected to because of the following informalities: brief description of drawings does not include a description for figure 3. Appropriate correction is required.

### ***Claim Objections***

4. Claim 18 is objected to because of the following informalities: antecedent basic. Claim 87 should depend on claim 17 instead of claim 1 to have proper antecedence basis. Appropriate correction is required.

### ***Allowable Subject Matter***

5. Claims 1-17 and 24-27 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: prior art of record considered as a whole alone or in combination neither anticipates nor renders obvious, a polishing layer comprising a free length of the fibers disposed as a fibrous mat substantially free of the polymer matrix, in combination with the rest of the limitations in claims 1 and 24.

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chen et al '066 and '681, Tolles '645 and '957 and Hsu et al are cited to show polishing pad having fibers and polymer matrix.

Art Unit: 3723
